

**PEARL ROLLUP - ET1-90**  
210MMW X 297MMH (A4) PRINT TEMPLATE

**GRAPHIC SIZE - 210MMW x 297MMH**

This area represents the total area of the graphic that will be printed. Always print to the edge of this section.

**SAFE AREA - 190MMW X 277MMH**

This area represents the visible area that will be clearly exposed after the graphic is erected. We recommend that you keep all important text and imagery within this area.

**UNPRINTED AREA - 210MMW X 50MMH**

This is the area of the banner material will be rolled inside the cassette.

**OBSTRUCTED AREA - 5MMH (TOP) + 5MMH (BOTTOM)**

This area is likely to be covered or obstructed by the top and rail and bottom lip, causing your graphics to not be fully visible. If the main artwork has a colour background, it is suggested that you print to the edge of this section.
