

Graphic Template for Wall Flag Kit
90-degree + Pocket version

70mmH for pocket (if required)
65mm of fabric required for circumference + 5mm of seam allowance

GRAPHIC AREA

630mmW (recommended)
650mmL* (suggestion)

*While we recommend a maximum width of 630mm, which takes into consideration the space occupied by the end cap and adequate clearance, the height shown in this template is provided for guidance only; when selecting your preferred height, please consider both the weight of your chosen material and the wind conditions it will face.
