ET1-71

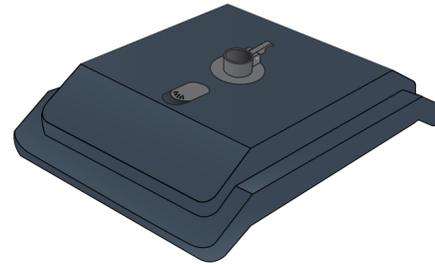

Link for top pole

Link for bottom pole

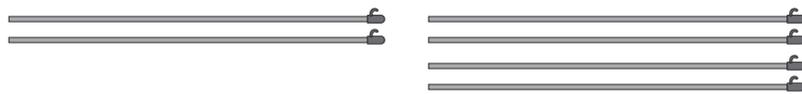

Water bottle base

Top pole (2 ea)

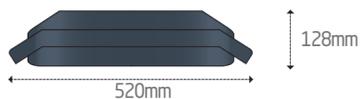

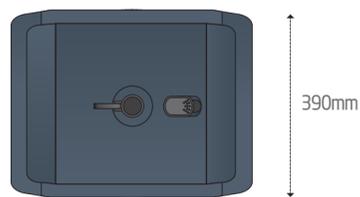

Bottom pole (2 ea)

Top rod (1 ea)

Bottom rod (1 ea)

1. Open the water bottle cap and fill it with water. (There is a risk of freezing in winter, so fill only 3/2 of the water bottle.)
2. Insert a rod into the center of the water bottle.
3. Insert top poles into the Link for top pole
4. Insert bottom poles into the link for bottom pole
If you want to hang two printings, connect the four poles to the banner.
5. Insert the poles into the hole in the printout.
6. Use a height regulator to tighten the printout.
