

BANNER BEAST
ET4-BB20/30

1 Unscrew the top bolt using a 10mm hex key

2 Repeat the previous step for the bottom bolt

3 The base will easily detach from the aluminium rods

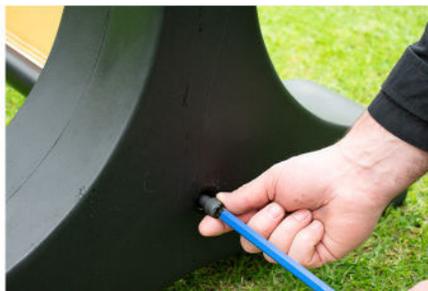

4 Slide the keder (banner) or the panel through the top and bottom channel

5 Attach the bases into the aluminium rods

6 Screw the top bolt using a 10mm hex key

7 Screw the bottom bolt using a 10mm hex key

8 Using an hex key, unscrew the water cap and fill up the bases

9 DONE!
