

ET4-BB20/30

The **BannerBeast** is a freestanding sign designed usually for use in gas and service stations. It features two 25L waterfillable bases and powder-coated aluminum rods to hold the client's graphic, whether it's a banner or a hard panel.

This sign is UV resistant, making it suitable for the Australian environment. It offers easy graphic changes, allowing businesses to update promotions effortlessly. The **BannerBeast** is durable and built to withstand outdoor conditions, ensuring it remains vibrant and eye-catching. With its versatility, stability, and durability, the **BannerBeast** is an ideal advertising solution for businesses looking to make an impact and attract customers at gas and service stations.
