## PVC MESH 9X9

Item no. ET6-140/140L

### Product Information

Crafted with high-tenacity gloss PVC yarns, our 9x9 Fence Mesh Banner media provides an ideal solution for durable, breathable, and high-quality signage. Available in two versions—one with a backing/liner and one without—it caters to a variety of printing needs.

The 9x9 thread count design ensures optimal airflow, reducing wind resistance and preventing banner strain. This makes it perfect for outdoor environments while maintaining print clarity.

The version with backing is designed for printers without ink trays, effectively holding all the printed ink for clean, professional results.

The non-backed version is perfect for ink-tray-compatible systems, maintaining ease of use and efficiency.

With a tensile strength of Warp: 850N/5cm and Weft: 800N/5cm, along with a tearing strength of Warp: 220N and Weft: 120N, this media resists wear and tear. It endures temperatures from -20°C to 70°C, ensuring year-round usability.

This banner material offers unparalleled strength, airflow efficiency, and customisation for signage projects. Its outdoor durability of up to 1 year ensures cost-effective, long-lasting results.

Ideal for fences, building sites, and event perimeters, our Fence Mesh Banner Media combines practicality with quality.

### Standard Dimensions

1600mm (wide) x 50m (long)

1800mm (wide) x 50m (long)

### Technical Data

<b>Material</b>	High-tenacity gloss PVC yarns
<b>Denier</b>	1000 x 1000
<b>Thread count</b>	9 x 9
<b>Total weight</b>	200gsm
<b>Tensile strength</b>	<b>Warp:</b> 850N/5cm <b>Weft:</b> 800N/5cm
<b>Tearing strength</b>	<b>Warp:</b> 220N <b>Weft:</b> 120
<b>Temperature resistance</b>	-20°C to 70°C
<b>Outdoor durability</b>	Up to 1 year
<b>Ink compatibility</b>	UV, Latex, Solvent and Eco

### Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC). No. 1907/2006 and is available on request. This product is not hazardous with regards to transportation legislation. Neither does it contain substances that are hazardous to water within the meaning of the federal water act. After use, dispose of the waste product in accordance with local/national authorities.
